Note: The rates in the above scale do not reflect the preceding Pro Rata Formula. Rather, the rates in the above scale exceed the rates that would be derived by application of the Pro Rata Formula. Therefore, the scale is an interim one. The rates in the above scale represent the retroactive rates in effect for Academic Year 1999-2000 plus an across-the-board increase of 4.62%. Additionally, Steps 10, 11, and 12 were added effective 8/1/01. Employees paid on this interim scale will be paid at the above rates until such future time as the actual pro rata formula rates exceed the rates in the interim scale.
