What is the AFT 2121 Affirmative Action Task Force (AATF)? The AFT 2121 AATF, previously AFT Local 2121 Diversity Task Force, was created to address the culture of white supremacy and to dismantle racism. The task force's first project collected and presented data on the gaps in CCSF faculty diversity, especially among of African American, Native American, and Latinx Americans, both as instructional and non-instructional faculty.
